Transfer of Mission and ownership:

Holy Spirit Northside Private Hospital and Holy Spirit Aged Care Services to St Vincent's Health Australia

The Holy Spirit Missionary Sisters entered an agreement to transfer Mission and 100 percent ownership to St Vincent's Health Australia effective **9 October 2018**.

The Holy Spirit Missionary Sisters Congregation has been reflecting for some time on their future missionary priorities. As a result, the Holy Spirit Missionary Sisters decided to divest their health and aged care portfolio to enable them to focus on walking with the marginalised: refugees, victims of human trafficking, dementia care, women experiencing homelessness and Aboriginal and Torres Strait Islander communities.

For 17 years, the Holy Spirit Missionary Sisters have partnered with St Vincent's Health Australia in health ministry. The change of ownership is a natural progression in this relationship. Expanding the St Vincent's Health Australia Private hospital and Aged Care portfolio supports the enVision2025 growth strategy through the provision of high-quality care, secure employment opportunities and generation of funds to support Mission activity.

The name Holy Spirit belongs to the Holy Spirit Missionary Sisters; our new Hospital name is St Vincent's Private Hospital Northside.

Emerging over the coming months, you will begin to see references to our new name, as we transition and make branding changes.

Our focus is to ensure we continue to serve the needs of our community reflected in our Mission as a Catholic healthcare organisation.

It's who we are and what we do together that makes all the difference...

Thank you for your ongoing support.

Daniele Doyle
